**Multiply \$1 prize payout times dollars bet to determine payouts for other dollar amounts played per race.

The Racetrax®/Racetrax® Bonus win levels are: a) Win (includes Win and Win/Show), b) Show (includes Show and Win/Show), c) Quinella, and d) Trifecta (includes Trifecta, Trifecta Box and Trifecta Wheel).

There is a \$1 million liability cap per race per win level when playing Racetrax® (with or without Racetrax Bonus). This \$1 million cap is effective regarding the Racetrax® portion of the wager whether Racetrax® Bonus is played or not and whether Racetrax® Bonus is won or not. This means that there is a maximum prize pool of \$1 million per race per win level that can be won when playing Racetrax®, whether or not Racetrax® Bonus is played. If the combined winnings in any one Racetrax® win level exceed the \$1 million maximum liability, then the \$1 million is split proportionately among winners in that win level based upon their original Racetrax® wager. Winners who would have won a higher amount will receive a larger portion (i.e., a larger prize amount) than winners who would have won a lower amount. When the liability cap per race for one win level is exceeded, the prizes for the other win levels will not be affected. If any other win level's liability cap is also exceeded, that win level's proportionate split is done independently of any other win level.

There is a \$3,150,000 liability cap per race per Racetrax® Bonus win level when there are Racetrax® Bonus winners. This Racetrax® Bonus cap applies only to the Racetrax® Bonus win portion of the wager. This means that there is a maximum prize pool of \$3,150,000 per race per Racetrax® Bonus win level that can be won when playing Racetrax® Bonus when there are Racetrax® Bonus winners. If the combined winnings in any one Racetrax® Bonus win level exceed the \$3,150,000 maximum liability, then the \$3,150,000 prize is split proportionately among all Racetrax® Bonus winners of that one win level based on the original amount wagered. When the liability cap per race for one win level is exceeded, the prizes for the other win levels will not be affected. If any other win level's liability cap is also exceeded, that win level's proportionate split is done independently of any other win level.

\$315,000 is the maximum prize per race on any one Racetrax® ticket when Racetrax® Bonus is not selected, or when Racetrax® Bonus is selected and "No Bonus" occurs on the Bonus wheel.

\$3,150,000 is the maximum prize per race on any one Racetrax® ticket when Racetrax® Bonus is selected and a bonus is won.

Racetrax®/Racetrax® Bonus tickets are bearer instruments. For your protection, sign the back of the game tickets. A playslip is neither a valid receipt, nor proof of purchase. Your game ticket, not your playslip, is the only valid proof of the selection made and the only valid proof for claiming a prize. Tickets are valid only for the game numbers shown on your ticket.

Before you leave the retailer's location, be sure to verify that the selections on your ticket are the selections you requested on your playslip, including type of bet, horses selected, bet amount and the number of races you want to play. You have the sole responsibility for checking the accuracy of the data printed on your ticket(s). No corrections may be made during or after the first race on your ticket. The Maryland State Lottery Agency ("Lottery" or "Maryland Lottery") is responsible only for numbers actually played via the Lottery terminal. Neither the Lottery, nor Lottery retailers, will be responsible for printing errors.

Racetrax®/Racetrax® Bonus tickets can be cancelled only by the same Lottery retailer who sold the ticket and only on the day of purchase prior to the first race on the ticket. During certain promotions, some tickets cannot be cancelled. If a Racetrax® ticket cannot be cancelled, the promotional material for that promotion will state that tickets cannot be cancelled.

By purchasing a Racetrax®/Racetrax® Bonus ticket, the player agrees that all Maryland Lottery Racetrax®/Racetrax® Bonus Game Rules and the rules stated in this brochure and on the playslip, as well as all Maryland State Lottery Laws, regulations, rules, and policies, and all other applicable laws and any changes to any of the above, govern all aspects of the Racetrax®/Racetrax® Bonus games, features, tickets, playslips, prizes and payment.

The Lottery is not responsible for tickets lost, stolen, damaged, or destroyed, tickets redeemed by a Lottery retailer in error, or winning numbers repeated or displayed in error. All winning tickets are subject to validation by the Lottery in accordance with Lottery rules and regulations. Prizes are not assignable or transferable. All winnings are subject to state, local, and federal taxation. Tickets may not be sold to, bought by or cashed by minors under the age of 18. PLAYING RACETRAX®

Completing a Racetrax® playslip is easy. Just use a pencil or blue or black ink, and make your marks heavy and horizontal.

Step 1 – Select a Bet Type:

Use Section 1 of your playslip to mark which Bet Type you wish to play. There are twelve (12) horses in every race. Seven (7) Bet Types are available. Select only one (1) Bet Type.

WIN: Select at least one (1) horse to finish in 1st place.

(Minimum Cost Per Ticket = \$1)

SHOW: Select at least one (1) horse to finish in 1st, 2nd or 3rd place.

(Minimum Cost Per Ticket = \$1)

WIN/SHOW: A WIN/SHOW is a combined WIN and SHOW bet on one (1) ticket. One (1) horse equals two (2) bets. (Minimum Cost Per Ticket = \$2)

- If your horse finishes 1st, you win the WIN and the SHOW prizes.
- If your horse finishes 2nd or 3rd, you win the SHOW prize only.

QUINELLA: Select two (2) or more horses to finish in 1st and 2nd place, in ANY order. (Minimum Cost Per Ticket = \$1)

TRIFECTA: Select the three (3) horses that will finish in 1st, 2nd and 3rd place, in EXACT order. (Minimum Cost Per Ticket = \$1)

TRIFECTA BOX: Select at least three (3) horses that will finish in 1st, 2nd and 3rd place, in ANY order. The number of wagers in a Trifecta Box for one Race is equal to the number of all possible combinations based on the total number of horses selected. Three (3) horses equal six (6) bets. (Minimum Cost Per Ticket = \$6)

TRIFECTA WHEEL: Select four (4) or more horses (at least one (1) in each box) to finish in 1st, 2nd and 3rd place in EXACT order. Quick Pick is not available for the Trifecta Wheel bet type. If more than four (4) horses are selected, the cost for one (1) race will be determined by the total number of all possible combinations. (Minimum Cost Per Ticket = \$2)

Step 2 – Select Your Horse(s):

Use Section 2 of your playslip to select your horses OR mark the Quick Pick box if you want your horses selected for you. Quick Pick is NOT available for the Trifecta Wheel bet.

WIN, SHOW or WIN/SHOW Bet: Select at least one (1) horse in the 1st box.

QUINELLA Bet: Select at least two (2) horses in the 1st box.

TRIFECTA Bet: Select three (3) different individual horses, one (1) in each of the 1st, 2nd and 3rd boxes.

TRIFECTA BOX Bet: Select at least three (3) horses in the 1st box.

TRIFECTA WHEEL Bet: Select four (4) or more horses, at least one (1) in each of the 1st, 2nd and 3rd boxes.

Step 3 – Select Your Bet Amount:

Use Section 3 of your playslip to select the amount you wish to bet per race (\$1, \$2, \$3, \$4, \$5, \$10 or \$20).

Examples are based on the minimum bet cost for one (1) race. The total cost of your ticket will equal:

WIN or SHOW = [Bet Amount] x [Number of Races] x [Number of Horses Selected]

WIN/SHOW = [Bet Amount] x [Number of Races] x [Number of Horses Selected] x [2]

QUINELLA = [Bet Amount] x [Number of Races] (If more than two (2) horses are selected, each additional horse will increase the cost by \$1 for each set of possible Quinella finishes. For example, if the one (1) and two (2) horses are selected, the sets would be 1-2, 2-1, and the minimum cost would be \$1. If horses one (1), two (2) and three (3) are selected, the sets would be 1-2, 2-1; 1-3, 3-1; 2-3, 3-2, so the minimum cost would be \$3-\$1 for each of the three sets.)

TRIFECTA = [Bet Amount] x [Number of Races]

TRIFECTA BOX = [Bet Amount] x [Number of Races] x [Number of Possible Bet Combinations] (six (6) is the number of bets in a Trifecta Box if only three (3) horses are selected. If more than three (3) horses are selected, the cost will increase by \$1 for each additional possible combination. For example, if four (4) horses are selected, there are 24 possible combinations for a cost of \$24.)

TRIFECTA WHEEL = [Bet Amount] x [Number of Races] x [Number of Possible Bet Combinations] (For example, if the 1 and 2 horses are selected in Box 1, the three (3) horse in Box 2 and the four (4) horse in Box 3, there are two (2) possible combinations, 1-3-4 and 2-3-4. The cost, based on a \$1 bet, would be \$2.)

Step 4 – Select Number of Races:

In Section 4, select the number of consecutive races you wish to play (1, 2, 3, 4, 5, 10 or 20).

Step 5 – Do You Want to Play Racetrax® Bonus?

If you would like to play Racetrax® Bonus, select "Yes" on your playslip for the Racetrax® Bonus option and have the chance to multiply your winnings on every race. You must play Racetrax® if you want to play Racetrax® Bonus. Selecting "Yes" will double the cost of your ticket. If you do not wish to play Racetrax® Bonus, then select "No."

The maximum wager per ticket for Racetrax® when Racetrax® Bonus is not played is \$120 per ticket.

The maximum wager per ticket for Racetrax® when Racetrax® Bonus is played is \$240 per ticket.

RACETRAX BONUS

What is Racetrax® Bonus? It is a feature of Racetrax® that gives you a chance to increase your Racetrax® winnings by up to 10 times the original amount. Simply mark the "Yes" box for Racetrax® Bonus on your Racetrax® playslip. Determining your Racetrax® Bonus wager is easy. It's the same amount that you wagered on Racetrax®. For instance, if you wager \$2 on Racetrax®, then your Racetrax® Bonus wager is an additional \$2, for a total ticket cost of \$4.

Racetrax® Bonus draws first, with a wheel that spins and stops to reveal which multiplier, if any, applies to the next Racetrax® race. Possible multipliers are 3, 4, 5 and 10. Then the race takes place. If your ticket is a winner for that Racetrax® race, and you also played Racetrax® Bonus, then multiply the amount you won by the Racetrax® Bonus multiplier. The result is how much money you'll actually collect. For example, if you win \$7 on Racetrax®, and the multiplier for that race is 3, then you collect \$21. If the multiplier is 4, you collect \$28, and so on. You can watch the results at most retailer locations. You can also use the Quick Check machine at any retailer or go to mldlottery.com to check your tickets.

Estimated Probability of Receiving a Bonus Multiplier

3x	1 in 3
4x	1 in 15
5x	1 in 40

Thanks to Racetrax® Bonus, you can win up to \$3,150,000 on Racetrax® when the Racetrax® Bonus option is selected and a multiplier occurs!
