Play *Keno* WHEN, WHERE and HOW you want.

Keno is a fast-paced, fun game that allows you to choose how many numbers to play, how much money to wager, where to play and where to check your winning numbers. *Keno* and *Packaged Keno To Go* are played using a field of numbers from 1 to 80, and you may choose up to 10 numbers in that field. The Lottery's computer continuously generates random sets of 20 numbers. Every 4 minutes, for each game, the central computer "locks in" on a set of those numbers, which are then displayed on the *Keno* monitor. There are a variety of ways to win based on matching some, all, or – in some cases – none of the numbers.

With classic *Keno*, you have the chance to win \$100,000 on a single dollar play! It's easy. Simply complete your *Keno* playslip using these five steps:

Step 1: Decide how many numbers (spots), from 1 to 10, you want to play per game.

Step 2: Decide how much to wager, from \$1 to \$20, per game.

Step 3: Choose your own numbers, or select "Quick Pick" and let the computer select numbers for you.

Step 4: Decide how many consecutive games, from 1 to 20, you want to play.

Step 5: If you want to play Bonus or Super Bonus, (you may select only one) select "Yes" on your playslip for the bonus option you want to play and have the chance to multiply your winnings on every game on your ticket. You must play *Keno* if you want to play Bonus or Super Bonus. Multiply the dollar amount you want to wager per game times the number of consecutive games you want to play to determine the total cost of the ticket.

Give your completed playslip and wager amount to a Maryland Lottery[®] retailer to receive an official game ticket. To see if you've won, watch your game(s) on a *Keno* monitor (located at most Maryland Lottery[®] retailer locations), check your numbers at any retailer using the Quick Check machine, or go to mdlottery.com[®] and click on the *Keno* logo. If your ticket wins before all consecutive games have been played, you may present it to your Maryland Lottery[®] retailer to receive your winnings along with an exchange ticket good for your remaining games.

Now you can enjoy the fun and excitement of **Keno** – for just 25 cents per game – when you buy a **Packaged Keno To Go (PKTG)** ticket at any Maryland Lottery[®] retailer. Play **Packaged Keno To Go** when, where and how you want – for less!

PKTG is always just 25 cents per game, and each game gives you a chance to win up to \$25,000! You can buy *PKTG* in 20-, 40-, 60-, 80- or 100-game tickets. A 100-game ticket can give you more than six hours of entertainment. You must use a *PKTG* playslip if you want to play *PKTG*. It's easy! Simply complete your *PKTG* playslip using these four steps:

Step 1: Choose the number of consecutive games you want to play:

- 20 games for \$5
- 40 games for \$10
- 60 games for \$15
- 80 games for \$20
- 100 games for \$25

Step 2: Choose how many numbers (spots), from 1 to 10, you want to play per game.

Step 3: Choose your own numbers or select "Quick Pick" and let the computer choose your numbers for you. Each of the games on your *PKTG* ticket will have the same numbers.

Step 4: If you would like to play Bonus or Super Bonus, (you may select only one) select "Yes" on your playslip for the bonus option you want to play and have the chance to multiply your winnings on every game. You must play *PKTG* in order to play Bonus or Super Bonus.

Give your completed *PKTG* playslip and wager to your Maryland Lottery® retailer to receive an official game ticket. Then, you can watch the results of your *PKTG* games where and when you choose – at most retailer locations, from the comfort of your own home or anywhere you have a computer with Internet access. You can also check your numbers at any retailer using the Quick Check machine or go to mdlottery.com® and click on the *Keno* logo.

Keno. BONUS[®]

Bonus is a feature of *Keno* and *PKTG* that gives you a chance to multiply your *Keno* and *PKTG* winnings by up to 10 times the original amount. Bonus can be added for the same amount that you wagered on your *Keno* or *PKTG* game. For example, with classic *Keno*, if you wager \$1, your Bonus cost is an additional \$1, making the total ticket cost \$2. If you are playing *PKTG*, the amount of your Bonus wager equals the amount of your *PKTG* wager. For example, if you choose a \$5 *PKTG* ticket, your Bonus cost is an additional \$5, for a total ticket cost of \$10.

The Bonus wheel will appear on the monitor just before each drawing. The Bonus wheel spins and stops to reveal which multiplier, if any, applies to the next *Keno* and *PKTG* game. Possible multipliers are 3, 4, 5 and 10. If your ticket is a winner for that game, multiply the amount you won by the multiplier that appeared on the Bonus wheel to determine the total amount of your winnings. For example, if you win \$5 and the multiplier for that game is 3, then you collect \$15. If the multiplier is 4, you collect \$20, and so on.

Estimated Probability of Receiving a Bonus Multiplier	
Bonus Multiplier Value	Probability
3x	1 in 3
4x	1 in 15
5x	1 in 40
10x	1 in 240
Overall Probability of Winning any Multiplier	1 in 2.3

Keno. SUPER BONUS™

Super Bonus is like regular Bonus, only better, because it guarantees both that if you win, your winnings will be multiplied, and also that your multiplier will be higher than the regular Bonus multiplier. Playing Super Bonus gives you the chance to multiply your winnings by up to 20 times **and guarantees you will at least double your regular Keno/PKTG payout when you win.**

The amount of your Super Bonus wager is twice the amount of your game wager. For example, if you wager \$4 on classic Keno, your Super Bonus wager is an additional \$8, making your total ticket cost \$12. With PKTG, if you choose a \$10 PKTG ticket, your Super Bonus cost is an additional \$20, for a total ticket cost of \$30.

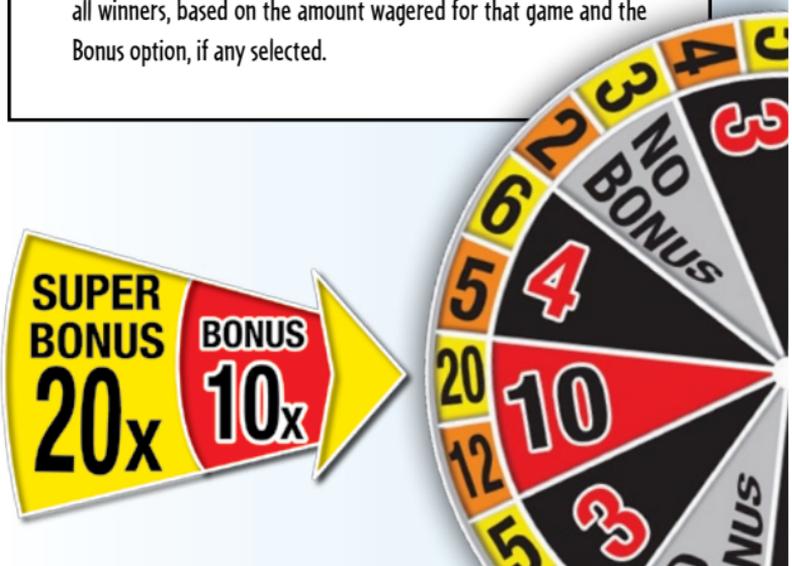

The Super Bonus wheel, the outer layer of numbers on the Bonus wheel, will appear on the monitor just before each drawing. The Super Bonus wheel spins and stops to reveal which multiplier applies to the next Keno/PKTG game. Your winnings are guaranteed to increase when you choose Super Bonus. Possible multipliers are 2, 3, 4, 5, 6, 10, 12 and 20. If your ticket is a winner for that game, multiply the amount you won by the multiplier that appeared on the Super Bonus wheel to determine the total amount of your winnings.

Estimated Probability of Receiving Super Bonus Multiplier								
Super Bonus Multiplier Value	2x	3x	4x	5x	6x	10x	12x	20x
Probability	1 in 2.4	1 in 7.1	1 in 3.9	1 in 7.4	1 in 28.2	1 in 160.0	1 in 310.1	1 in 930.2
Overall Probability of Winning any Multiplier	1 in 1							

\$1,000,000 is the liability cap when playing a 10-spot for any *Keno* game (including *Keno* and/or *PKTG*) when a Bonus multiplier of 10 is won. This means that there is only one \$1,000,000 prize per drawing that can be won when playing the *Keno*/*PKTG* 10-spot with a Bonus multiplier of 10, and in the unlikely event the combination of all prizes for *Keno*/*PKTG* winners of a 10-spot with a Bonus 10 multiplier exceeds \$1,000,000, then the \$1,000,000 will be divided proportionately among those *Keno* and/or *PKTG* winners based on the amount wagered for that game.

\$2,000,000 is the liability cap when playing a 10-spot for any *Keno* game (including *Keno* and/or *PKTG*) when a Super Bonus multiplier of 20 is won. This means that there is only one \$2,000,000 prize per drawing that can be won when playing the *Keno*/*PKTG* 10-spot with a Super Bonus multiplier of 20, and in the unlikely event the combination for all prizes for *Keno* and *PKTG* winners of a 10-spot with a Super Bonus 20 multiplier exceeds \$2,000,000, then the \$2,000,000 will be divided proportionately among those *Keno* and/or *PKTG* winners based on the amount wagered for that game.

So \$3,000,000 is the combined liability cap when playing a 10-spot for any *Keno* game (including *Keno* and *PKTG*) when a Bonus multiplier of 10 is won and when a Super Bonus multiplier of 20 is won in the same drawing. If there is only one winning ticket in each category, Bonus and Super Bonus, then those two tickets will pay the maximum payout amount per drawing when playing the *Keno*/*PKTG* 10-spot; but in the unlikely event the combination of all prizes (*Keno*, *Keno* with Bonus, *Keno* with Super Bonus, *PKTG*, *PKTG* with Bonus and *PKTG* with Super Bonus), exceeds \$3,000,000, this amount will be divided proportionately among all winners, based on the amount wagered for that game and the Bonus option, if any selected.

How do you check your numbers to see if you've won?

- Watch the games at any Maryland Lottery® retailer location that has a *Keno* monitor.
- Go to mdlottery.com® and click on the *Keno* logo from the menu of games. Enter your game numbers to check your ticket, OR click to experience a *Keno* drawing and watch your games on your computer monitor.
- Use the Quick Check machine available at any Maryland Lottery® retailer.

When You Win

- Winning tickets with a value up to and including \$600 may be redeemed at any Maryland Lottery® retailer.
- Winning tickets with a value of \$5,000 or less may be redeemed at any Maryland Lottery® Agent Plus location.
- All winning tickets, including tickets with a value over \$5,000, may be redeemed at either of the two Maryland Lottery® Customer Resource Centers.
- Please allow at least 7 to 10 days for processing for any winning tickets with a value above \$25,000.

Additional Rules

Keno and/or *Packaged Keno To Go* (jointly or individually called "*Keno/PKTG*") tickets, with or without the Bonus or Super Bonus features, are bearer instruments. For your protection, sign the back of your game ticket. A playslip is neither a valid receipt nor proof of purchase. **Your game ticket, not your playslip, is the only valid proof of the selections made and the only valid proof for claiming a prize.** Tickets are effective/valid only for the game numbers shown on your ticket.

Before you leave the retailer's location, be sure to verify that the selections on your ticket are the selections you requested on your playslip, including numbers selected and the number of spots and games you want to play. You have the sole responsibility for checking the accuracy of the data printed on your ticket. No corrections may be made during or after the first drawing on your ticket. The Maryland Lottery® ("Lottery") is responsible only for numbers actually played via the Lottery terminal. Neither the Lottery, nor Lottery retailers, will be responsible for printing errors.

Keno/PKTG tickets can be cancelled only by the same Lottery retailer who sold the ticket and only on the day of purchase prior to the first draw on the ticket. During certain promotions, some tickets cannot be cancelled.

By purchasing a *Keno/PKTG* ticket, you agree that all Lottery *Keno/PKTG* Game Rules and the rules stated in this brochure and on the playslips, as well as the Maryland State Lottery Laws, regulations, rules, and policies, and all other applicable laws and any changes to any of the above, govern all aspects of the *Keno/PKTG* games, features, tickets, playslips, prizes and payment.

The Lottery is not responsible for lost, stolen or destroyed tickets, tickets redeemed by a Lottery retailer in error, or winning numbers repeated or displayed in error. All winning tickets are subject to validation by the Lottery in accordance with Lottery rules and regulations. Prizes are not assignable or transferable. All winnings are subject to state, local and federal taxation. Tickets may not be sold to, bought by or cashed by minors under the age of 18. Prizes must be claimed within 182 days after the date of the relevant drawing.
